

Dear FCC,

Please Please Please DO NOT replace the K-LOVE signal with a LPFM Station. K-Love is a necessary part of our community. It saves Lives! I know because I am a life that was saved/changed. The DJ's and the music encouraged me to seek God in a more intimate way. Now, I personally sponsor (through a monthly pledge) K-Love air time because the station continues to prove time & time again to be and to have an encouraging word in times of need. "Just Check Out some of the Amazing Personal testimony's From Listeners Like me" at the K-love web site.

On the homebuilder's construction job sites across Arizona, I believe k-love has helped to keep the peace between Hispanics and Anglos: the encouraging words of instructions has kept the arguing and separation down to a minimum.

We can and do work together sing along to the comforting words of K-Love.

Thank You For NOT replacing Community Supported Christian Broadcasting with an LPFM Band/station, especially K-Love

Sincerely,

Your every day Guy

Mario Salerno
